**OBČINSKA UPRAVA**

---

Datum: 16. 12. 2025

**APPEAL TO CITIZENS AND VISITORS:**

**In the Municipality of Kranjska Gora, celebrate the holidays without fireworks!**

Dear visitors and citizens,

The festive season is approaching, a time when the use of fireworks often occurs in our surroundings. Although their use is legally permitted between December 26 and January 1, we once again kindly and sincerely urge you to completely **refrain from using fireworks this year. Our wish remains the same as in previous years – to celebrate the holidays and welcome the New Year in Kranjska Gora without any loud explosions. We aim to become the first municipality in Slovenia to enter the New Year without fireworks, setting an example for others.**

The reasons for this appeal stem from respect for people, domestic and wild animals, and the natural environment in which we live.

**Stress and danger to vulnerable groups**

Fireworks produce loud noise, which can be extremely disturbing for children, the sick, the elderly, and animals. Even minor explosions can cause health problems for some patients. Additionally, we live near the **protected Triglav National Park**, surrounded by forests and environments where many wild animals reside. Fireworks cause them severe stress, which can lead to injuries, fleeing, and even death.

**Environmental pollution**

In addition to noise, fireworks contribute to light pollution, release harmful particles into the air, and leave behind waste. Firework debris in meadows can enter the food chain through hay, endangering the health of animals and humans.

**Safety and property damage**

Improper use of fireworks poses risks of fires, physical injuries, and property damage.

We thank you for respecting our appeal and hope to enter the New Year as peacefully as possible, **without any explosions.**

At the end of the year, we wish all citizens and visitors a peaceful and pleasant holiday season and all the best in the New Year. May these festive days be marked by warmth, mutual respect, and understanding. Happy New Year!

**Municipality of Kranjska Gora**
